THE LIGHTNING V-NECK WAS DESIGNED SPECIFICALLY TO ALLOW FOR SUBLIMATION DECORATION

Take embellishment to the next level with Sublimation! Sublimation printing is the application of specialty inks onto fabric using a heat press. The combination of heat, time and pressure causes these special inks to convert directly from a solid to a gaseous state. They penetrate the surface and fuse to the fibers of the fabric so that a permanent, full-color image is formed.

This printing technique is a premium alternative to Screen Print. It's perfect for picture quality images with many colors. Because the decoration becomes a part of the fabric instead of sitting on top of the fabric, color will not crack, peel or fade. Garments decorated with this type of printing are lighter weight and perform better.

LIGHTNING V-NECK JERSEY
